Apparel & Workwear

CATALOGUE 2023

Our catalogues

“We dont believe in a one-size-fits-all”

Barron offers a wide variety of canvasses and solutions that support and build brands. We are the BRAND-ABLE™ Solutions business that offers the widest selection of corporate and promotional products.

Our extensive range holds a world of possibilities, with our high quality and trendy Apparel, Workwear, Sport, Headwear, Gifts, Bags and Display products, you can take comfort in that your brand is well represented.

We don’t believe in a one-size-fits-all approach and with our wide range of catalogues, we make finding the perfect solution for your brand a breeze.

- Apparel • Workwear • Gifts & Bags • Eco-Friendly • Headwear • Sports • Display

Branding

Branding Solutions

Our dedication to high quality and ever-expanding branding solutions guarantee that we have the right solution for your brand. No matter the product, we can brand it.

Branded clothing is an effective way of increasing your brand awareness, whether it's your staff at an office, conference, or event.

Here are a few of the most popular branding types for Apparel & Workwear:

- Embroidery
- Screen print
- Heat press

Branding Options

Each product has a suggested branding method icon, these are suggestions of the best branding method to use for your products.

Pad printing is done using a silicone pad. It functions as a transfer vehicle, picking up ink from the printing plate, and pressing it directly onto the product.

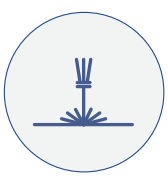

Screen printing is a printing technique whereby a mesh screen is used to transfer ink onto a substrate. This is the most common method of imprinting on promotional items and apparel.

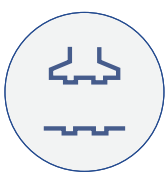

Embroidery is stitched with a computerised embroidery machine using patterns digitised with embroidery software.

Digital printing is a method whereby the image is printed directly onto the product. This application provides you with a full colour printing option.

This method is achieved by burning the top layer of the substrate with a thin laser beam that cuts through the product creating a lasting detailed logo.

Deboss printing involves creating a die in the shape of a logo that is pressed into the surface creating a permanent sunken design.

Digital stickers are digitally printed directly onto a vinyl adhesive substrate that can be affixed to a product. This application provides you with a full colour printing option.

Dome printing is digitally printed directly onto a vinyl adhesive substrate that can be cut into a variety of shapes and sizes. The stickers are then coated with a polyurethane to give a dome-like appearance creating a 3D effect.
